**Subject:** Des Moines TCE - feasibility study update question

Erin:

I will have a schedule to you today. Ted is working on costs, which we should have to you by tomorrow. We're waiting on our risk assessor, who's been out of town.

We've started going through the B&V Feasibility Study and noticed that they don't include an option for demolition. I wanted to confirm that, in addition to updating the other options, we would be providing a new option that includes demolition. Feel free to call if this doesn't make sense.

Thanks,

Mike
